

Keeping Up With Coastal Eye Associates...

# EYES ON COASTAL

November 2019

## Tip Of The Month:

If you are taking Optos photos, it is ideal to capture at least 2 images per eye. Sometimes there is a glare covering a small area, or a dust particle that can look like an embolism in an artery. Having a second view can help prevent misinterpretations.

\*Please see attached fliers for more info\*

- November 2: Oohs and Aahs/Clariday Aesthetics Holiday Open House
- November 16 (morning): Eye Stroll for Vision Walk at the Houston Zoo
- November 16 (evening): Coastal Employee Recognition Event
- December 8: Pictures with Santa
